

BHUMIKA SIRIPIREDDY

Software Developer

React.js | Redux.js | Next.js | Node.js | Express | MongoDB | Vercel
Trivandrum, India | +91 93904 00339 | siripireddybhumika@gmail.com

Professional Summary

Software Developer with **2+ years of experience** building responsive web applications using **React.js** and **Next.js**. Skilled in creating **reusable UI components**, integrating **REST and GraphQL APIs**, and managing state using **Redux Toolkit**. Experienced in **Agile development** and using **AI-assisted tools** to speed up debugging and **unit testing**, improving productivity and code quality.

Technical Skills

Frontend Technologies: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, GraphQL

Backend: Node.js, Express.js

State Management: Redux.js, Redux Toolkit (RTK), Context API

Testing: Jest (Unit Testing)

AI Productivity Tools: GitHub Copilot (Debugging, Unit Testing, Code Optimization)

Database: MongoDB

Tools: Git, GitHub, Postman

Project Management: JIRA, Confluence

Methodologies: Agile / Scrum

Professional Experience

Software Engineer – React.js
UST Global, Trivandrum

April 2024 – Present

- Developed reusable and responsive UI components using React.js for enterprise web applications.
- Implemented state management using Redux Toolkit and Context API to improve scalability and maintainability.
- Integrated REST and GraphQL APIs to enable seamless frontend and backend communication.
- Collaborated with backend developers, QA teams, and product stakeholders to clarify requirements and deliver features.
- Participated in sprint planning, daily stand-ups, reviews, and product demonstrations in Agile environment.
- Wrote and maintained unit tests using Jest to ensure code reliability and reduce regressions.

Projects worked in UST

Resale Item Application (MEMSP Portal) – Albertsons

Role: React Developer

- Contributed to a large-scale production React application through bug fixes, UI enhancements, and feature improvements.
- Resolved functional and UI issues to improve application stability and user experience.
- Used AI-assisted tools (GitHub Copilot) to analyze bugs and suggest optimized solutions.
- Accelerated unit test case creation with AI support, achieving nearly **80% effort reduction**.
- Followed structured Git workflows and supported validation in lower environments before release.

Fresh Item Project (New Product Development)

- Core frontend developer for a product built from scratch using React and TypeScript.
- Delivered assigned user stories on time, ensuring smooth development progress.
- Collaborated closely with backend teams and UI/UX designers to convert requirements into functional components.
- Used AI tools for faster development, code analysis, and optimization.
- Improved productivity through reusable components and increased unit test coverage.
- Performed smoke testing and demonstrated features to QA teams and Product Owners.

Personal Projects

Menu-Mate – Digital Menu & Catalog Platform

Live Project: <https://menu-mate-h3fo.vercel.app/>

Description

A web platform that enables businesses to create and share digital menus through QR codes, allowing customers to instantly view items, pricing, and details on their mobile devices.

- Developed a digital menu and catalog platform allowing businesses such as restaurants, salons, cafes, bookstores, and retail shops to display their items online.
- Built the frontend using **Next.js, React, TypeScript, and Tailwind CSS**.
- Implemented features for adding products, pricing details, and QR code-based menu access.
- Developed backend APIs using **Node.js and Express.js**.
- Integrated REST APIs and tested endpoints using Postman.
- Deployed the application on **Vercel** for public access and scalability.

Key Achievements

- Reduced unit testing effort by nearly **80%** using AI-assisted tools.
- Delivered multiple production bug fixes and UI enhancements in an enterprise application.
- Independently built and deployed a full-stack project (**Menu-Mate**) using Next.js and Node.js.

Education

Bachelor of Engineering – Electronics and Communication Engineering

Dhanalakshmi College of Engineering, Chennai

2019 – 2023

Certifications

Completed Full Stack MERN + Java Training (6 months) – JSpiders Training Institute, Bangalore (2023)
